- **The man is planting the sapling.**
- **What are the rest of the people doing?**
- **The rest of the people are appreciating the efforts.**

•Composition

This picture depicts the scene of “Tree Planting Day”. Last year our school principal organised an event where all teachers, the school authority and the students gathered in the garden to plant trees. Our teacher Miss Neena told us to bring saplings with us. We all brought various kinds of saplings with us.

On that day, before starting the event our honorable Principal had delivered a speech in which he apprised us of the benefits of planting trees. He also made us aware if we plant more and more trees, our environment will be fresh and pollution free and if all the trees

will be cut down then it would be difficult for us to live on this Earth. On that day, we all pledged that every year we will plant trees to make our environment safe and secure. After speech, we all planted saplings in the garden. It was such a memorable and informative day for us.

Moral - We should plant more and more trees to save the Earth.
